Date of application:	**1/7/2013**
Expiration date:	**7/6/2013**

Project Description:

Replacing existing air handler furnace and heat pump

Our records indicate that the above permit was due to expire on **7/6/2013**. Permits may expire and become null and void 180-days after the date of issuance, or if there is no inspection activity within a 180-day period. If the permit expires, a new permit is required for the remaining scope of work.

Please call the inspection line (541-766-6745) prior to 02/10/15 to schedule the required inspections to avoid expiration of this permit.

If work has ceased on this project for reasons beyond the control of the applicant, permits may be extended one time for a period not to exceed 180-days. For consideration of this one-time extension, please submit a written request and provide an explanation of the circumstances and a date when work will recommence.
