Re: City of Corvallis PR #175-2002, Taylor WTP Facility Plan Update

PUBLIC WORKS

Dear Mr. Hunt:

We have received the above referenced plan that provides for the future water supply needs of the City of Corvallis through the year 2020 and beyond. The plan reviews the status of the Taylor WTP, water rights, alternative sources (wells, ASR), future system demands, and future federal water regulations to evaluate impacts and possible improvements needed to insure a safe drinking water supply. We have completed our review and concur with the recommendations of the plan. We recognize the plan as a general guide for future improvements and will deal with the individual projects through our plan review requirements and approval process.

Please keep our office informed of any changes.

Sincerely,

Tom Charbonneau, P.E.
