

To Whom it May Concern,

Hello. This is Justin with Big Wood Tree experts. I am submitting this proposal on behalf of the residents at 3725 NW Lark Place. They have eight oak trees that they would like to remove. Most of them are stumps of trees removed a long time ago that have grown back. All of the trees in question are rotten at the base or hollow in the trunk. The customers understand that white oak trees must be replanted in the common area and are okay with that. They are just wanting to remove dying or hazardous trees in close proximity to the house. I hope this letter helps you to reach your decision. Please let me know if you need any additional information.

Thank you for your time,

Justin Gammon

Tree Location Site Plan

Prepared by: Big Wood Tree Experts

Plot existing or proposed structure(s) and all proposed trees for removal. If trees are to be retained near any trees proposed for removal, please annotate which are to be removed and which are to be retained. Show dimensions from the property lines and existing structures. Show North arrow.

Shannon - I'm unsure of the exact property lines, but it appears to be where I highlighted with the black dotted line.
The customer plans to replant all white oaks for every tree removed - a 1 to 1 ratio within 30 days of removal
