Subject: Expansion of Parking District C

Mr. Mayor and City Council Members: We need a parking district because from 8am to 5pm during peak usage hours we have no place to park within blocks of our home. Because of the location of our neighborhood we get downtown workers, city employees, commuting students, and university staff all vying to park in our neighborhood. The opposition would like to phrase the argument as being anti-student, but that is not the case at all. We picked Corvallis to be near downtown, the university and the students. We find the students provide vitality to our neighborhood which we enjoy. But we need relief from all the cars parking on our streets during peak usage hours. Please support our efforts.

Thank you,

Bill and Suki Meyer
