COMPREHENSIVE PLAN TEXT AND FUTURE LAND USE MAP

The Comprehensive Plan of the City of Corvallis is the primary document which guides and controls land use within the City limits and the urban growth boundary. The plan is intended to reflect the community's current thoughts on land use planning to be responsive to the needs and desires of citizens. The Comprehensive Plan contains findings and policies (the Plan text) and the Future Land Use Map. The Land Use Map is reproduced on this page.

Over the past year the Corvallis Planning Commission has reviewed and the Corvallis City Council has adopted, individual elements of the Comprehensive Plan. These elements contain findings and policies pertaining to the Statewide planning goals. The Comprehensive Plan text, which is one subject of the public hearings, is a compilation of the previously adopted elements.

Another subject of the public hearings is the Future Land Use Map which is intended to be a visual representation of the policies. The Revised Future Land Use Map was reviewed by the Planning Commission and its committees. The Future Land Use Map designates land uses for the area within the urban growth boundary and delineates a property-line specific urban growth boundary. When adopted, the proposed Comprehensive Plan text and Future Land Use Map will replace the 1978 Comprehensive Plan and 1978 Future Land Use Map.
