

- Rake leaves into piles on the street the evening before your scheduled leaf pick-up day.
- Do not rake leaves into curbside bike lanes. Please use your yard debris cart if there is a bike lane in front of your residence.
- Place leaf piles one foot from the curb to allow space for rain water to runoff along the curb line.
- Make sure leaves do not block catch basins or storm drains.
- Avoid parking vehicles near leaf piles, as Republic Services cannot collect leaves blocked by vehicles.
